

Edem Topuzov

Ruby on Rails Developer

- **Date of birth:** 30.09.1984
- **Country:** Russia
- **City:** St.Petersburg
- **Phone:** +7-921-757-22-46
- **Email:** edem.topuzov@gmail.com
- **Telegram:** <http://t.me/mechnicov>
- **LinkedIn:** <https://linkedin.com/in/mechnicov>
- **GitHub:** <https://github.com/mechnicov>
- **Stack Overflow:** <https://stackoverflow.com/u/10608621>

Summary

I'm interested in OOP, Ruby and associated technologies.

I have good analytical skills and quickly study.

I like to learn new things and deepen existing knowledge. So, for example, I love Udemy, Exercism, Codewars.

I prefer to design that the apps are scalable and develop that the code is readable and understandable.

Skills

- **Ruby:** Rails, GraphQL, websockets, Rails Event Store, RSpec, Minitest, Capybara, OOP, MVC, REST, DRY, refactoring, code style
- **Front-end:** HTML, CSS, JavaScript, React, CoffeeScript, jQuery, Bootstrap, Bulma, Slim, HAML
- **SQL:** PostgreSQL, Oracle, SQLite
- **NoSQL:** Redis
- **Git:** GitLab, GitHub, BitBucket
- **DevOps:** Capistrano, Nginx, Docker, Heroku, AWS
- **Other languages:** Kotlin, Python, Java

Projects

- **Sato** [web app](#) for apartment rent searching
- **Mobiusbike** [mobile app](#) for bike / scooter renting including SaaS for franchisees
- **PitProduct** [web app](#) for food company
- **Lend** [web app](#) for cryptocurrency lending
- **Droptext** [web app](#) for code snippets sharing
- See also GitHub account

Education

- [St Petersburg University](#) – Master's degree in Database Technologies
- [Good Programmer](#) – Ruby on Rails crash course

Work experience

- Ruby on Rails Developer: [Hodl Hodl](#) (11.2021 – **present**)
Development of fintech platforms for cryptocurrency exchange and lending.
- Ruby on Rails Developer: [Molinos](#) (05.2019 – 11.2021)
Design and development of new Rails applications. Support and development of existing applications. Unit testing. Deploy. Integrations with front-end, mobile apps. Telegram bots.
- Ruby on Rails Teacher: [Good Programmer](#) (05.2019 – **present**)
Mentoring. Code review. Webinars. Help and clarification. Answers to students' questions. LMS development.
- Ruby on Rails Developer: [Goody](#) (02.2019 – 05.2019)
Designed, developed and tested new widget features for customers. Backend develop, deploy, debugging and integration with mobile app. Bringing a startup into production
- Lead Engineer: Production Department, Projects and Estimates Expertise Department (railway building). The experience of 10 years.
My stress resistance, responsibility, focus on results, ability to team work with a large amount of information helped to ensure that our organization met the targets on time.
And by the way, I know exactly what Rails are.

Work possibility

- **Employment:** full, part-time, project work
- **Schedule:** full day, remote work
- **Relocation:** possible
- **Business trips:** ready

Languages

- Russian – Proficiency
- English – Intermediate

Hobbies

- Travelling, my cars, handwork, historical books reading
